GlobalChamber of Commerce selects FreedomRocks as the #1 Global BizOpp in the World

After many years of research, the *GlobalChamber of Commerce*, an International Business Organization, has completed its search for the "Ultimate Global Business Opportunity". After researching hundreds of other opportunities, only one company was qualified to be #1 based on our selection process of (11) business criteria:

- 1) A mature, stable, and debt-free company – in business at least 5 years
- 2) A global business opportunity – the ability to build seamlessly in countries around the world
- 3) Virtual products that could be delivered and utilized via the Internet
- 4) A simple & duplicatable marketing system with 3rd party credibility
- 5) A 2-Team organization structure and compensation plan to ensure "Infinite-Level Pay"
- 6) A global Visa or MasterCard-type PayProgram for its Representatives
- 7) A minimum 70% cap on commissions
- 8) Weekly commission runs
- 9) Monthly bonuses, fast start promotions, and incentive trips/contests
- 10) No-cost online training
- 11) Global customer support – live call and email

Larry Kozin, Founder & CEO of the *GlobalChamber* says that to his surprise, FreedomRocks, a 7-year old Direct Selling Company, exceeded their selection criteria by leaps and bounds. Mr. Kozin states, "We were prepared to compromise and even lower our initial selection criteria expectations due to the necessity of identifying the #1 Business Opportunity... however I was amazed that *FreedomRocks* surpassed all of our requirements."

As an example, whereas most companies cannot afford even a 66% income distribution cap, *FreedomRocks* surpasses every other business opportunity with up to a 90% cap and a logo-branded MasterCard that is loaded every week regardless of the geographic location of the Representative.

Mr. Kozin goes on to state, "it is very easy for other magazines & organizations to endorse a company based on advertising dollars paid for the endorsement...in the case of the *GlobalChamber of Commerce* and *FreedomRocks* relationship...not only are we not getting paid any promotional fees from *FreedomRocks*, but we have chosen to become Independent Representatives ourselves. In this down economy, business owners are not spending money on memberships...instead we allow them to leverage the credibility we bring to the table and build a worldwide organization from their home base.

I personally want to thank, Mr. Mark Vincelletto, the Founder & CEO of *FreedomRocks*, for the amazing opportunity he has made available to our members and look forward to a very profitable business relationship for decades to come".
